

It's Time to Go Back to School!

It's time to go back to school.

Grown-ups want to keep you safe.

Wash your hands through the day to keep germs away.

Grown-ups will tell you who you are safe to play with,

or if you have to stay at home again for a little while.

Playing is important to keep you healthy and strong!

If you feel like Fired-Up Freda, you could ...

... have a crunchy snack,

hang from a bar or a tree,

or climb on a climbing frame,

to feel better again.

If you feel like Sleepy Sue,
you could ...

... go on your bike,

have a cold drink,

or run in the playground,

to feel better again.
